

WP Riehle RMBB Lye Applicator

Reduce Labor • Increase Production • Improve Safety

- Simple operation, robust construction, and a high level of mobility – thanks to castors
- The enclosed Caustic soda tank ensures safe production with minimum space requirements
- Reliable computer control for variable production speeds
- Caustic soda level indicator for trouble-free operation
- Easy to clean
- Motor and pump are maintenance-free
- Capacity of Caustic soda-solution tank: 100 litres
- Removable tables at the entrance and exit of the machine = small store place required
- Charging with cloth

Suitable for applying Caustic soda-dough products, such as pretzels, crusted soda-dough rolls, knots, croissants, Caustic soda-dough baguettes, party confections, etc.

Heater for tank improves colour and shine

Optional: salt scattering

- The patented Caustic soda shower and its compact design make the WP Riehle Lye Application machine the perfect partner for craft bakeries.
- Production speed: 120 trays per hour
- WP Riehle Lye Application machine provides the highest quality lye application for artisan bakeries.

WP Riehle Allround & Tauchboy

Reduce Labor • Increase Production • Improve Safety

Allround

- Scattering device, infinitely adjustable device for different scattered toppings.
- Interchangeable containers for the scatterer offer the possibility of using different toppings.
- The Caustic soda tank heater prevents the Caustic soda temperature from decreasing.
- The adjustable heater tank improves colour, shine, and constancy.
- Caustic soda charging cloths, food grade, thermonized, and suitable for dryers.
- Custom manufacturing on request
- Economical Caustic soda application for up to 300 trays per hour
- Caustic soda shower with Caused soda curtains on entry and exit side allow for safe operation.
- Hygienic handling
- Adjustable belt speed for adaptation to specific production requirements
- Optimal non-slip placement of Caustic soda-applicate dough

Tauchboy

With its simple handling and minimum space requirements, **Tauchboy** is a cost efficient Caustic soda applicator. Thanks to advantages such as fast and easy cleaning, and its mobility with a rolling underframe, Tauchboy is used in production as well as in shops for on-site Caustic soda application. The entry model is made entirely of stainless steel. It can be locked and it is shipped with a salt container.
