Conical Rounder

CCR 59

Picture CCR 59 with oiling, infeed and discharge conveyor and discharge cone

SUITABLE FOR MANY COMMON DOUGH TYPES, SUCH AS WHEAT, WHEAT / RYE, MULTIGRAIN AND WHOLE WHEAT DOUGHS. THE DOUGH PIECES ARE TAKEN OVER BY THE ROTATING CONE AND SHAPED INTO ROUND DOUGH PIECES BY THE SPECIALLY SHAPED TRACKS. BECAUSE THE TRACKS ARE MECHANICALLY PROCESSED, THERE IS A VERY HIGH PRECISION BETWEEN TRACKS AND CONE.

BENEFITS

- Excellent round moulding results
- Perfect separation between dough pieces coming from the divider
- Minimum of dough crumbs
- Perfect transfer from dough pieces on the out-feed side
- The combination of cylindrical and conical cone gives an extra-long round moulding way, therefore this round moulder works also perfect as an end round moulder
- Adjustable tracks on infeed cylindrical part
- Dough pieces are turned half way round moulding process
- Wide weight range, caused by using different types of tracks
- 6 mtr track length
