Semi-automatic loading system

PAGE®

WP GreenEnergy

- Energy savings through optimum oven utilization

WP SmartControl

- Easy operation

WP BakingQuality

- Observance of baking times
- Loading at always correct baking chamber temperature

**SEMI-AUTOMATIC
LOADING SYSTEM FOR
LOADING AND UNLOADING
OF DECK OVENS**

BENEFITS

- Reduced workload
 - relief of staff from heavy physical work
 - time savings
- Optimum utilization of oven capacity
 - energy saving
 - increased productivity
- Maximum safety standards
- Simple operation
- Integrated intelligent control system
 - loading and unloading processes individually programmable
 - fully automatic execution of loading and unloading procedures
- Observance of baking times
- Loading at always correct baking chamber temperature

Technical data

PAGE®

Output volume	in kg/hour	up to 650
Selectable ovens/decks		3/18
Operable baking area	in m ²	66
Traversing speed, vertical	in m/sec	0.125
Traversing speed, horizontal	in m/sec	0.3
Loading speed	in m/sec	0.5
Emptying speed	in m/sec	0.35
