

**NOT JUST
A MIXER.**

KAIROS

KAIROS - The Future of Dough Starts Now!

KAIROS marks the beginning of a new era. Even today, it intelligently supports your production — and we are continuously refining it, with one clear goal: the fully autonomous AI mixer of tomorrow.

Control is the Key to Perfection.

With precise dough monitoring, you ensure quality, efficiency, and consistency.

Collect all data live during the mixing process

KAIROS evaluates each mixing process and provides optimization suggestions

Full batch documentation including variance analysis

TODAY

- › Manual recipe optimization based on suggestions from MixControl
- › Insight into parameter deviations

2026 AI-PREPARED

- › MixControl integrated into the HMI
- › Recipe optimization at the push of a button

2027 AI-ASSISTED

- › KAIROS determines the optimal mixing point
- › Intelligent reminders for manual dosing steps

FUTURE AI-CRUISE CONTROL
